

Eva Perlskog

Born in Stockholm in 1955.

I works with oil on canvas, graphics and sketching. What interests me the most is the human being. My aim is to illustrate people in different ways. It's difficult but exciting work. To prepare myself I've studied art and done a lot sketching croquis and painted by model. I live and work in the nature reserve of Marvikarna which lies in the Swedish province Sörmland south of Stockholm.

Education
