

Curriculum Vitae Menno Vos

Born: 25-04-1958 in Dordrecht (The Netherlands)

His art started with photography and his love for travel. Menno Vos had his travel photography published in several Dutch magazines. He still loves photography, but now he is mainly an abstract painter. His inspiration is the people he meets, the images he sees and the emotions that he feels while travelling. Menno's work is the result of his desire to understand people. It is full of color, depth and sometimes a bit mysterious. He is also an enthusiastic participant in art gallery PS20 and lives in the town of Apeldoorn.
