

Garcia Sudmeijer-Evers

I'm from a small town in the east of Holland. However, I was born in the most southern province of the country.

Ever since my toddler's years of my life I have been drawing and painting. Apart from a course in Illustration Drawing at the Vrije Academie of Amsterdam in the 80's and early 90's, I am still self-taught.

I've always had a passion for nature and for the sea especially. The calm and wild sea that brings and ends life. I want to project this into my paintings. You can often find the feeling of freedom in my abstract landscapes.

I love working in acrylics, but also like using oils, watercolour and pastels. New techniques and materials inspire me to experiment and try them out in my paintings.

Painting is my big passion which gives me peace and energy. I would like to give the viewer the opportunity to experience it for themselves when they stand in front of my work.
